**To:** The Commissioner of Patents and Trademarks, Washington, DC  
20231

Please amend the specification in line with the claims attached hereto.

**Remarks**

This is in response to the final office action of 8/29/03. Attached hereto is the one month extension of time, in duplicate, to extend this response time.

In the detailed action the Examiner requested that a clean copy version of claim 19 be provided. This seems to be unnecessary as the claim has been deleted. But claim 19 is herein provided to assure that this is a complete response to the office action. The new matter rejection is not argued herein since the claim has been removed. However, the applicant does not believe that the matter in claim 19 now deleted was new matter in light of the teaching in the specification and the public knowledge of biotechnology.
